

Dear Smartie,

Welcome to Math Superstars, a program designed to enhance your journey through mathematics! Be prepared to face challenging problems, which require thinking! As you work through the system you will experience many types of problems, stretching and expanding your brain power in many exciting ways!

Expect to receive one superstar sheet on Wednesdays of each week. On Thursdays, you will attend a Superstar Workshop to help you with the most difficult problems. Then, you will have until Tuesday of the next week to think about the problems and come up with strategies for the solutions. The thinking and solutions must be YOUR VERY OWN!

Your journey will be recorded by charting the stars you earn. Each problem is ranked according to its level of difficulty. The more stars you see beside a problem, the higher its level of difficulty and, of course, the more stars you earn for solving it.

Your signature is just the beginning.

Good luck as you embark upon this mathematical adventure! The rewards will last a lifetime!

I am ready to begin Math Superstars! All the answers I submit will represent my own thinking.
